LIBRARY NEWS

National Library Week 2010
April 11-17
Each year during April the Library celebrates National Library Week with libraries across America. First sponsored in 1958, National Library Week is a national observance sponsored by the American Library Association. It is a time to celebrate the contributions of our nation’s libraries and librarians and to promote library use and services.

For 2010 we would like to make READ posters using students and their favorite books. Stop by the library anytime during Week 1 to get your picture taken and help us commemorate National Library Week.

Books 24x7
The Sullivan University Libraries are now subscribing to Books24x7, a database of on-demand business, technical and engineering content containing thousands of digitized "best-in-class" books, book summaries, research reports and best practices. The Books24x7 On Demand Platform enables users to search, browse, read and collaborate with other users of these vast professional libraries.

Links to get started using the database can be found on the library’s web page or by talking with a librarian.

What's the Book??
For each day in 2010 the Library will be testing your knowledge of our book collection – each morning we will tweet a line from a book in the collection to our Twitter account WhatstheBook. We’ll give you the answer the following morning along with a new line to guess. Follow us and join the fun!

Library hours for Spring Quarter:
Monday-Friday 7:30am to 9:45pm
Saturday 7:30am to 4:30pm
