Computer technology is pervasive in the modern world, its role ever more important as it becomes embedded in a myriad of physical systems and disciplinary ways of thinking. The late Michael Sean Mahoney was a pioneer scholar of the history of computing, one of the first established historians of science to take seriously the challenges and opportunities posed by information technology to our understanding of the twentieth century.

— BOOK JACKET DESCRIPTION

A no-nonsense guide that uses easy, numbered steps and concise, straightforward language to show the most expedient way to perform tasks and solve problems in Windows 7.

— BOOK JACKET DESCRIPTION

Experience learning made easy and quickly teach yourself how to use Microsoft SharePoint Foundation to enable effective team collaboration.

Beyond bullet points: using Microsoft PowerPoint to create presentations that inform, motivate and inspire. by Cliff Atkinson Microsoft Press, 2011

658.452 A875b

How to use stories to create effective business presentations.

Website design and development: 100 questions to ask before building a website. by George Plumley Wiley, 2011

006.7 P734w

Using a question-and-answer format to examine a website. Offers clear, easy-to-follow advice on everything from finding a host, design and layout, creating content, marketing, to staying secure. Each question features a rating as to how critical it is to the welfare of the site, allowing you to pick and choose where to spend your time and money, and the answers contain helpful illustrations as well as action points.

Framing a Great Paper

For the next few weeks the library will have a display featuring hints and suggestions to help with Framing a Great Paper. Includes ideas on topic selection; utilizing library resources from books to e-journals; APA citation format and plagiarism. Stop by and check it out!

Library hours for Summer Quarter:

Monday - Friday 7:30am to 9:45pm

Saturday 7:30am to 4:30pm

Sunday CLOSED
