<td>Courtroom evidence handbook.</td>
<td>Steven Goode</td>
<td>West Group</td>
<td>R 347.736</td>
<td>Designed both for law student advocates and students enrolled in traditional evidence courses, this handbook provides full coverage of courtroom evidence procedures, rules, and law. It contains the Federal Rules of Evidence, including recent and pending amendments; offers rule-by-rule commentary, serving as a mini-treatise on federal rules; and covers objections and responses. It is indispensable for students participating in a mock trial, going to court as part of a clinical program, or trying to understand the law of evidence. It also helps students bridge the gap from understanding the law of evidence to understanding how to perform at trial.</td>

<td>George Kuney</td>
<td>Thomson / West</td>
<td>R 346.7320</td>
<td>This book is a practical, brief, to-the-point text covering the fundamental working parts of a contract and how one should be prepared. It provides an overview of the issues and processes involved in drafting contracts and transactional documents. It enables students to analyze the basic structure of contracts and other deal documents and develop the macro and micro techniques used to efficiently create those documents with precision and clarity. It provides the principles necessary for an understanding of the common structures of transactional documents and their provisions that can then be applied to specific transactions. Beyond structural drafting, this book also covers some of the substantive laws that may affect contracts.</td>
