Tax law is a daunting subject for many law students, requiring both technical and abstract thinking. Tax law necessitates a firm grasp of the Internal Revenue Code provisions, the reasoning behind them the way they interact, and how courts have interpreted them. This book provides a guide for beginning tax students, with extensive coverage of thirty-six subjects typically covered in the basic federal income tax course.

The author, a professor of law at Stanford University, shows us the many ways in which civil rights can go terribly wrong. He examines newsworthy lawsuits with shrewdness and humor, proving that the distinction between civil rights and personal entitlements is often anything but clear. Finally, he reveals how many of today’s social injustices actually can’t be remedied by civil rights law, and demands more creative and nuanced solutions. In order to live up to the legacy of the civil rights movement, we must renew our commitment to civil rights, and move beyond them.

This book traces the story of the American gun market as reflected by an Austrian six-cylinder revolver, tracing how it has become a weapon of choice on both sides of the law, in the entertainment industry, and among Second Amendment enthusiasts.

Lois Jenson was among the first women hired by a northern Minnesota iron mine in 1975. Female miners were relentlessly harassed with pornographic graffiti, denigrating language, stalking, and physical assaults. Terrified of losing their jobs, the women kept their problems to themselves; until Lois filed a complaint against the company in 1984. Despite all of the obstacles the legal system threw at them, Lois and her fellow plaintiffs enlisted the aid of a dedicated team of lawyers and ultimately prevailed. Class Action tells how these brave women made history, although not without enormous personal cost. This is the story of how one woman pioneered and won the first sexual harassment class action suit in the United States, a legal milestone that immeasurably improved working conditions for American women.
