The fantastic Gardiner Point Residence Hall opened its doors in the 2010 summer quarter. It’s a great place to live, study and socialize, and this student-centered facility is just a short walk from the SCTD campus! But there’s much more to this wonderful Residence Hall besides a convenient location. The facility offers many exciting amenities.

**Residence Hall is well-designed to meet students’ needs**

The facility offers an on-site convenience store designed, in part, by students in the Sullivan College of Technology and Design’s Interior Design program. In the “C” Store, students can purchase school supplies, snacks, hygiene items and just about everything they could need on a regular basis. There’s also a heated pool, and a fully equipped fitness center, also designed in part by SCTD Interior Design students. A large student lounge, open 24 hours a day, has comfortable chairs, tables, and TVs; it’s a great gathering place for visiting or studying. There is also a fabulous game room (ping pong, air hockey, etc.) and a Nintendo “Wii” room with large flat screen TV and sofa. Plus, there’s even a plush theatre room for watching movies and sporting events. Outside is a basketball court, and a professional level sand volleyball court is planned. While students work on assignments, communicate with friends and family, or entertain themselves with internet games in the computer lab, they can also make use of the on-site battery of new washers and dryers and folding tables, features that were, again, designed in part by SCTD students.

The 4,000 square foot “The Dining Room at Gardiner Point” boasts an “all you can eat” meal plan seven days a week. Selections range from soups and salads to quick snacks, even full-course hot meals. Faculty and staff, as well as friends and family of residents, are welcome to eat inside the restaurant or dine on the patio overlooking a lake. Students and faculty from SCTD’s Interior Design program also played a major role in developing the dining area of the facility.

**SCTD’s enrollment soars for Fall!**

This fall, more than 200 new students have just begun classes at SCTD. Nearly 30% are recent high school graduates; more than half have been out of school a year or more. While new students have enrolled in all the degree programs offered, Computer Graphic Design, HVAC-R Technology, Mechanical Engineering Technology (Robotics) and Interior Design have the largest enrollments. When asked, students say they chose SCTD for many reasons besides the great convenient housing! They like to immediately take classes in their chosen field, their first quarter. Small classes are another reason why students chose SCTD. Students state they appreciate learning from instructors who are active in their fields, and to have a lot of hands-on work. Many students are attracted to frequent opportunities to provide service to the community. Career Services’ lifetime employment assistance and lifetime audit privileges also convince students that SCTD is for them. Is Sullivan College of Technology and Design right for you or someone you know? Call the Admissions office at 502.456.6509 or 800.844.6528. for information and to schedule a tour.
