LOCKED IN TUTION GUARANTEE! Sullivan College of Technology and Design guarantees that when you start school in a certificate, diploma, associate, or bachelor’s degree, and with continuous attendance, your tuition will not increase through completion of your bachelor’s degree.

It’s not all work and no play at SCTD!

Bowl for Kid’s Sake

Every year, SCTD’s Graphic Design program develops the entire fundraising campaign for Big Brothers; Big Sisters of Kentuckiana, Inc. Bowl for Kid’s Sake. But we are not satisfied with just doing the campaign for the event. SCTD puts together a team of bowlers who must have at least $80 in pledges in order to bowl for the event. Anyone can bowl, from the serious to the once-a-year bowler. The event provides fun, exercise and support for a very worthy cause!

Watermelon Treats

SCTD celebrated National Watermelon Day and provided slices of watermelon for all students to enjoy...no charge. Very hot day. Icy cold watermelon. Perfect combination. This is just one of many food perks day and evening students enjoy; hot dogs, ice cream, doughnuts, whatever appeals!

Annual Picnic is a great campus event

The day was not without challenges. A high wind threatened all morning to tear away the tents for the serving and eating areas. With the muddy campus lawn full of construction equipment, there was also the challenge of relocating the event to a blacktop area and selecting enjoyable activities. Of course, we put the challenges behind us and had a great time!

Campus bids fond farewell to Ray Oakes

Ray Oakes, Evening Division Dean at Sullivan College of Technology and Design, recently celebrated his retirement with a farewell luncheon on his last day, following 32 years of service to SCTD. Ray was pampered with a commemorative plaque, good food, and well wishes from all who worked with him over his long tenure with the college.

Mr. Oakes began working as a part-time mechanical drafting instructor in September of 1978. In 1993, he assumed the duties of Evening Division Dean on a part-time basis. Following his retirement from General Electric in 2004, he became the full-time Evening Division Dean, a position he held until his recent retirement from the college.

Among his many contributions to the college, he played a critical role in the research, development and implementation of the college’s newest associate degree program, HVAC-R Technology.

Cory Lewison, Mechanical Engineering Technology department chairperson, has been at the college for many of the years during which Mr. Oakes served. She said, “Ray has been an institution at this school for more than 30 years and it is with mixed feelings that I watch him go. On one hand I will miss seeing him in the hallways and saying ‘good night’ as we leave in the evening; on the other hand I wish him all the luck and lots of good times during his well-earned retirement. Good-bye Ray; you will be missed.”

Sullivan University System’s Chancellor, Dr. A.R. Sullivan, praised Mr. Oakes at his retirement luncheon. “Thank you, Ray, for your longevity with the college, your loyalty, and your attention to the many needs of our students.”
