“I have taught math at Louisville Tech for over 26 years because I believe that we are helping our students acquire skills with which they can improve their lives and those of their families. My goal is to share that math can be fun as well as beneficial to their careers.”

TAMI KINCAID

COMPUTER ELECTRONICS TECHNOLOGY
In ELC112 students covered the third basic components of electronics (the capacitor) and learned to combine different components to see the effects they created when combined.

“I believe that we are all bath teachers and students each day on just different subjects.”

NANCY WHHEELER

CLASSROOM
Instructor Nancy Wheeler works with Stephanie Reiter as Manual Figg looks on.
