Take a peek inside classes
and read why students say SCTD was
the best choice for their career success

**Mechanical Engineering Technology/Robotics**

"SCTD offered the class I needed to improve my skills for my Master’s in Education in Instructional Technology."  
**PEGGY MULLER**

"The only school that offered an A.A.S. in Mechanical Engineering. You get a lot of hands-on experience so you’ll know what you’re doing when you get to the workplace."  
**BARBARA NEWTON**

"I enrolled because of the small classes, the campus and the job assistance program. The robotics program was interesting and caught my attention."  
**COURTNEY HORNBECK**

"I chose SCTD for the hands-on training and the one-on-one help from instructors."  
**CHRIS VALENTINE**

"I’ve learned how to program and re-program robot automated systems to maintain and troubleshoot them."  
**CRIG THOMPSON**

"My teaching philosophy is to combine advanced technical education with real life engineering experience to demonstrate to the students in a laboratory environment, how to design and operate machinery and equipment."  
**GREG ZARHANK, Instructor**

"This class is wonderful. I was looking for a school that had small classes and learning about your major immediately; No classes are taken that are not required for your major."  
**EVELYN DURHAM**

"I’ve learned more than I ever expected. Teachers are actually concerned about you and are more than willing to help students in any way they can."  
**JESSICA KELLER**

"I chose SCTD because I was looking for a Bachelor’s in Interior Design degree. Students attending Sullivan College of Technology and Design appreciate the individualized attention they receive from their instructors. Middle, Instructor Terry Huff and James Alvey. For right, Instructor Terry Dodd discusses the project designed by Paul E. Clark, II, Architectural/Mechanical CADD."

"I decided to advance my career and SCTD has a very strong Mechanical CADD program. Night classes allow me to still work as well as attend college. I was nervous about returning to school after 20 years but the staff and faculty have made it enjoyable and exciting. I look forward to learning new things every day."  
**STEVEN LOCKER, Instructor**

"I love computers and art. It’s pretty cool, how to create a logo."  
**KAYLA REESE**

"I’ve learned how to recover data."  
**EMILY SHERRARD, Instructor**

"This class has definitely shown me how to use CADD to my advantage. As interior designers, we will definitely need tools like this for time management."  
**BRANDON BATZINGER**

"I enrolled here for the direct preparation for the workplace. Also recommended by my father-in-law who is an education administrator in Bullitt County."  
**JON A. BACCHINNO, Mechanical and Architectural CADD**

"I enrolled because of the small classes, the course and the job assistance program. The robotics program was interesting and caught my attention."  
**COURTNEY HORNBECK**

"The class is great. I’ve learned how evidence is regulated and nationally accredited school, and everything I expected, instructors are excellent, classes are small, the campus and the job assistance program. The robotics program was interesting and caught my attention."  
**CHRIS VALENTINE**

"I’ve learned how to program and re-program robot automated systems to maintain and troubleshoot them."  
**CRIG THOMPSON**

"My teaching philosophy is to combine advanced technical education with real life engineering experience to demonstrate to the students in a laboratory environment, how to design and operate machinery and equipment."

"This is wonderful. Mr. Chamberlain knows what he is talking about and doesn’t mind stopping and helping someone having problems."  
**RICHARD NOBLE, Instructor**

"I enrolled here for the direct preparation for the workplace.”  
**JON A. BACCHINNO, Mechanical and Architectural CADD**

"I’ve learned how to recover data. This is what I was looking for in a school. Small classes and learning about your major immediately. No classes are taken that are not required for your major."  
**EVELYN DURHAM**

"I chose SCTD because I was looking for a Bachelor’s in Interior Design degree. Students attending Sullivan College of Technology and Design appreciate the individualized attention they receive from their instructors. Middle, Instructor Terry Huff and James Alvey. For right, Instructor Terry Dodd discusses the project designed by Paul E. Clark, II, Architectural/Mechanical CADD."
