faculty and staff for food donations. This project
was spearheaded by the Radiology students
who participated in a friendly competition amongst themselves.
Students in each quarter of their program were challenged to bring in as many cans of food as possible to win the grand prize – a free day of rest and relaxation from their clinical rotation. The eighth quarter students were victorious and received that well-deserved day of rest with the sixth quarter students coming in a close second. Radiology Department Director Mary Kaye Griffith was proud of the mountain of groceries that amounted to nearly a ton of food collected for this charitable organization in just one month.

Spencerian receives
distinguished Community Service Award

The Career College Association (CCA) is a voluntary membership organization comprised of private, postsecondary schools and colleges which provide career-specific educational programs. The 1330 member institutions educate more than a quarter of a million students per year for employment in more than 200 occupational fields.
The CCA recognizes outstanding achievements by its members with its Annual Achievement Awards to recognize the best of the best – exceptional colleges, graduates and individuals who have worked tirelessly to further the cause of career colleges and institutes.
This year, Spencerian College was the recipient of the Community Service Award. This award recognizes the social responsibility of a CCA institution for its leadership and dedication to programs which have benefitted the community, such as Spencerian’s Annual Clothesline Project, Dare to Care Food Bank Drive, Making Strides Against Breast Cancer and EveryReads program.

“I was extremely proud of our faculty, staff and students for their participation and caring attitude toward our community which made this award possible,” stated Jan Gordon, Executive Director, adding, “It was truly an honor to receive and accept this award on behalf of our college.”
