Midway College

My name is Mark Johnson and I’m a Sullivan Alum. I graduated in April of 2007 with my Associate degree in Computer Programming. Within two months after graduation, I was offered a software development position with ACS, a Fortune 500 company. I started at $50k/year, and that’s with no experience. At first, I was concerned that maybe I had over-sold myself, but my fears were soon laid to rest when I realized that I had been trained by the best, Tom Jones! All those lessons and activities that at the time made no sense to me, are now a great asset in my career.

I know that teachers don’t make what they should, so I thought at the very least, a pat on the back was in order. All the professors at Sullivan are great but nearly every computer class I had was under Mr. Jones’ tutelage. This man did such a good job that he has changed my life for-ever. My family will NEVER again have to struggle as hard as we used to, and boy we struggled! Now when I look at my six year old daughter, tears well up in my eyes knowing that she will never face the poverty that I had to grow up with. This man is an exceptional teacher, and advisor. He deserves some praise!

I would also like to help spread the message of the importance of education. I think that I’m a perfect example of how someone can transform their life with a little work.
