Dream...
and as you dream,
remember that only you can make
your dreams come true.

Reach...
and as you reach, remember that
success takes time, devotion,
and sometimes a little disappointment.

Believe...
and as you believe,
you will find reaching gets easier,
setbacks get more manageable.
Life becomes more meaningful.

There's a wonderful dream
waiting just for you...
I know you can make it come true.

As Sullivan University celebrates its 50th anniversary in 2012, an invitation has been proudly extended to its Founder and Chancellor to bring the spring 2012 Commencement address.

Dr. A.R. Sullivan has a distinguished history in career-focused higher education. In 1962, he and his father founded Sullivan University (then Sullivan Business College) and greeted seven students and five faculty members on opening day in June 1962. Fifty years later, the University's fall 2012 enrollment will exceed 6,000 students with over 900 faculty and staff serving a growing student population on three University Campuses across Kentucky and around the world through its Sullivan Global Online campus. Sullivan University has grown from that humble beginning to become, in 2012, Kentucky's largest independent four year College or University.

Chancellor Sullivan has a career spanning 54 years in higher education. He has served in almost every leadership role in state, regional, and national educational organizations and associations. He has served as a member of the Board of Directors of the American Council on Education whose membership includes the presidents of such institutions as Notre Dame and Harvard. Chancellor Sullivan was the first career-focused college leader to be elected to serve on
the board of this prestigious organization. He has served as Chairman of the Board of the Association of Independent Colleges and Schools, the largest organization of accredited independent private colleges in the United States, and as Chairman of its Accrediting Commission. He has served on numerous commissions including the National Commission on Higher Education and the Adult Learner.

In 1979, he led Sullivan University to be the first career college/university in the south to receive regional accreditation as an Associate Degree granting institution from the Commission on Colleges of the Southern Association of Colleges and Schools. He followed that accomplishment in 1990 by taking Sullivan University to accreditation as a Baccalaureate Degree granting institution. In 1996, Sullivan University became the first private, career-focused college or university in the south to receive full accreditation to award Masters Degrees from the Commission on Colleges of the Southern Association of Colleges and Schools and the new Graduate School opened in 1997. In 2008 he led the University as it opened the Sullivan University College of Pharmacy offering a Doctor of Pharmacy degree and, in 2010, a second Doctorate, the PhD in Management was initiated. The University has just been recognized as the largest Graduate School of Business in the Louisville metropolitan area.

Chancellor Sullivan and his family represent four generations of service to higher education beginning with his father's history in career education in Kentucky which began in 1927. Chancellor Sullivan's son Dr. Glenn D. Sullivan, a proud third generation in his 30th year of service, is President of Sullivan University and The Sullivan University System. His daughter, Lisa Sullivan Zaring, is Director of Career Services for Sullivan University's Early Childhood Education programs. Beginning in 2011, the Chancellor's granddaughter, Elizabeth Likins, began teaching at the University as an Adjunct Faculty Member.

Individuals listed are Candidates for the indicated Certificate, Diploma or Degree
Known to family and friends as Mel, and to students as Dr. K, he was born in Dayton, OH on November 21, 1935 to Albert and Helen Kuhbander. Having been taught by Marianists in high school, Mel left home at age 15 to join the Marianist brotherhood and begin a life in education. He studied science and mathematics for his Bachelor’s degree at the University of Dayton, then earned a Master’s degree from the University of Pittsburgh in mathematics, and went on to teach in the New York school system. In the late 1960s Mel received a dispensation from the brotherhood. He met his wife Sandy Foley in Puerto Rico, where she worked as a nurse and he as a professor of mathematics at the Catholic University. They began a family and Mel continued his education, receiving a Ph.D. from the University of Pennsylvania in Education Administration. During the 1970s he taught, then became a principal, and finally a superintendent in the Pennsylvania public school system. He then moved his family to Singapore where he became superintendent of the Singapore American School. Mel’s legacy there is marked by the Melvin H. Kuhbander Fine Arts Center. Mel and his family returned to the states a decade later and he served as President of the Ursuline Campus Schools in Louisville, KY and the Schools for the Catholic Diocese of Peoria, IL. In the last years of his career, he returned to the classroom—a lover of education and a natural performer, his heart was always there—and from 2001 onward he was a math professor at Sullivan University.

Mel loved reading books to school children, though he could never finish “The Velveteen Rabbit” without crying. He was skilled at woodworking and filled his children’s homes with furniture. He loved music, from Willie Nelson to Paganini. And he was always quick with clever puns, a skill he seems to have passed on to his children.

Dr. Kuhbander is sorely missed and will be long-remembered by friends, students and colleagues.
Congratulations on receiving your degree! We know you're going to do great things and we want to hear about them. Please take a moment to register with your Alumni Office so we can follow your future success. Information on how to contact the Alumni Office may be found in the envelope when you receive your degree.
